

Dear Hiring Manager,

I am excited to apply for the Part-Time UI/UX and QA Assistant position at SureMark Digital. Your mission to restore trust in online content through digital credentials deeply resonates with me, especially in an era where authenticity and credibility are more vital than ever.

As a motivated learner with a growing foundation in front-end design and software testing, I am eager to contribute to your innovative work. I have experience using design tools like Figma and am actively building my skills in JavaScript and React. I'm comfortable troubleshooting bugs, running QA tests, and collaborating across teams to improve both form and function.

I'm particularly drawn to the hybrid flexibility of this role and the opportunity to work in a mission-driven environment. I'm confident that my attention to detail, adaptability, and willingness to learn would make me a valuable addition to the SureMark Digital team.

Thank you for considering my application. I would love the opportunity to contribute to your efforts in making digital spaces more secure and authentic.

Thank you for considering my application. I am excited about the possibility of joining the Mavs EDGE team and contributing to a program that makes such a tangible difference for students at UTA. I look forward to the opportunity to interview and further discuss how I can contribute to your team.

Sincerely,

Ahmed Bahbouh
